SUB TITLES

1. At one time the salt industry of the Bahamas was on its way toward world importance, but alas, competition and lack of capital spoiled it all. Matthewtown, Inagua.
2. There's a scarcity of drinking water so special watering places are made for the birds.
3. A salt bath that refreshes.
4. After a hurricane the low places of the island are flooded. The savannas are a splendid place for wild donkeys to roam.
5. Here the ocean offers itself to the salt magicians for its transformation.
6. Canals connect the ocean with the large reservoir, which is flooded and the water allowed to evaporate until it is four times its natural strength in salt.
7. Flaminges feed here in large numbers.
8. From the reservoir the water is pumped into small ponds and the evaporation process is completed.
9. "Uncle Charlie" Sargent and Mr. Boucher, the owners.
10. Raking into heaps.
11. The feet of the natives are pickled to such an extent that strong brine no longer has any effect.
12. It is estimated that 100 acres of salt ponds yield about 1,500,000 bushels of salt yearly.
13. Bleached in the sun.
14. Bringing the salt down to the coast for shipping.
15. Earning his salt.
16. The shipper of the salt charts a schooner.
17. The salt is bagged and loaded into lighters -----
18. -----which convey it to the vessel.
19. Under way.
20. So the ocean's tears are not all shed in vain, for when they're dried we have in them one of life's necessities.

(The End)
